- The entrance should be clear of obstacles and hazards at all times that people are entering or leaving the building.
- Spills must be cleared up quickly to prevent slipping. (There is a mop in the Kitchen)
- Electrical leads should not be allowed to trail across floors or from areas where they might be pulled or become caught up.
- As good practice hirers should have a method to account for the number of persons present during their hire.
- Do not leave the cooker/oven unattended, even for a short time.
- Ensure kettles are not over-filled nor should the leads be left to trail over the edge of the work top.
- Children should only be in the kitchen when under the direct supervision of an adult and not at any other time.
- Be careful when replacing tables onto the trolley, and stacking chairs
- Be conscious of good hygiene practice when working in the kitchen
