

Calling for a volunteer to assist Fritwell Village Hall (FVH) CIO with Website content and Digital Mailings

As we progress towards our shared objective to replace the current Village Hall, our communications to residents will more and more rely on our Facebook page, Website and Digital Newsletters as well as good old-fashioned talking!

We would welcome a volunteer to join us, who has interest & skills in IT & Digital content generation.

In the recent past we have enjoyed the help of an IT "A" level student, but you could be someone who has current or recent web content experience or has generated digital newsletters? Most of all we are looking for a volunteer who has the time & wants to help Fritwell Village Hall communicate effectively digitally with residents.

This is a low number of hours volunteer role and you wouldn't have to become a FVH Trustee.

Is that you?

Full training on the use of WordPress and Mail Chimp will be provided.

If this interests you, please email info@fritwellvillagehall.co.uk or telephone our Secretary Helen Metcalfe on 346697
